## SUMMARY

Experienced Software Developer with 1 years in designing and implementing software solutions. Proficient in C#, ASP.NET, and SQLServer, with a strong background in application development, troubleshooting, and performance optimization. Adept at working in agile environments and delivering high-quality code. Seeking to leverage my technical expertise and analytical skills .

## EXPERIENCE

### Software developer

#### Progressix

August 2023 - Present

- Developed and maintained the meeting module, facilitating scheduling and minute recording for a user base of 5,000+.
- Built microservices for authentication, session management, and signing, reducing downtime by 30% and scaling to support a 50% increase in users.
- Contributed to student and teacher management features, optimizing class scheduling and attendance tracking, resulting in a 40% reduction in administrative workload.
- Optimized application performance through refactoring, database tuning, and caching, achieving a 50% decrease in response time and 60% faster data retrieval.
- **Tech Stack:** C#, .net Framework, MVC, Angular js, Bootstrap, HTML5, CSS3, SQL server, SVN.

### Software Trainee

#### Megasoft pvt. ltd.

January 2023 - July 2023

- constructive feedback to enhance coding skills and maintain code quality.
- Documented codebase and project processes to facilitate knowledge transfer within the team and ensure smooth project continuity.
- **Tech Stack:** AJAX, jQuery, JavaScript, HTML5, CSS3, Bootstrap, SQL Server.

## SKILLS

**Programming Language:** Java, C , C#,ASP.NET

**Web Technologies:** HTML5, CSS3, JavaScript, AJAX, jQuery, Bootstrap, Angular js

**Database:** MySQL, SQL Server

**Tools And Framework:** Eclipse, Spring, .NET Framework, SVN, Git, Visual Studio

**Methodologies:** Agile/Scrum, RESTful APIs, Unit Testing

**Other Skills:** Requirement Analysis, Project Management, Technical Documentation

## EDUCATION

### Masters of Computer Application

Lalit Narayan Mishra Institute of Economics Development and Social change, Patna • 2023 • 8.86

**Relevant Coursework:** Software Engineering, Database Systems, Web Development

## ACADEMIC PROJECTS

### Streamlined Electricity Billing System with Java Swing GUI

- Registration and authentication for new users. And Role-based access control (e.g., customers, administrators).
- Automatic calculation of electricity bills based on usage. And Customizable tariff plans.
- Real-time tracking of electricity consumption. And Historical data analysis for usage trends.
- Tech Stack-(Core Java,Swing,SQL)

### Project Description: Quick Inn - Streamlined Hotel Management

Megasoft • February 2023 - March 2023

- Quick Inn is a comprehensive and innovative hotel management information system designed to enhance operational efficiency and elevate guest experiences within the hospitality industry.
- Online booking, centralized management, real-time updates, Dashboard, room assignment, special requests, Room status, task assignment, inventory
- Automated billing, payment gateway integration, financial reports
- Tech Stack- (Core Java, Swing, SQL)

## CERTIFICATIONS

### C/C++

NIIT • 2023

### Java Full Stack

Megasoft • 2023
