INTERNSHIPS/TRAINING

SOFTWARE DEVELOPER

PROGRESSIX | 2023- Present

- Developed and maintained ASP.NET MVC/Core web applications, ensuring high performance, responsiveness, and security.
- Collaborated with cross-functional teams to gather requirements, design solutions, and implement features. Also designed SQL database for the project.
- Optimized application performance through code refactoring, database optimization, and caching strategies

SOFTWARE TRAINEE

MEGASOFT 2023- Present Jan 2023-July 2023

- Collaborated with senior developers and software engineers to design, develop, and implement Java-based Project.
- Actively participated in code reviews, providing and receiving constructive feedback to enhance coding skills and maintain code quality.
- Documented codebase and project processes to facilitate knowledge transfer within the team and ensure smooth project continuity.

EDUCATION

Lalit Narayan Mishra Institute of Economics Development and Social Masters of Computer Application

2021- 2023 | 8.6 CGPA

Relevant Courses: Software Engineering, ADBMS, Operating System, OOPS, Cloud Computing, Machine Learning, Computational Mathematics, Data structure And Algorithm

UNIVERSITY PROJECTS

Project Description: Central Perk - Seamless Online Food Ordering and Table Reservation Platform

Central Perk is a cutting-edge web-based application that revolutionizes the way customers interact with restaurants.

Technologies that have been used are HTML, CSS, JavaScript, JAVA and in database MySQL is used.

Project Description: Streamlined Electricity Billing System with Java Swing GUI

The Electricity Billing System is an advanced Java-based application that revolutionizes the process of electricity billing and management. The key highlight of this project is the implementation of the Java Swing framework to create an intuitive and user-friendly Graphical User Interface (GUI).

Project Description: QuickInn - Streamlined Hotel Management System

QuickInn is a comprehensive and innovative hotel management information system designed to enhance operational efficiency and elevate guest experiences within the hospitality industry.

Built on the robust Java platform and leveraging the power of the Java Swing framework,

TECHNICAL SKILLS

- **Programming Language:** Core Java ,Advance Java, C, ,C#
- **Web Technologies:** HTML , CSS, JavaScript ,Bootstrap, Angular js, Node Js
- **Database:** MY SQL ,SQL Server
- **Tools And Framework:** Eclipse, Spring, .NET Framework
- **Microsoft Office:** Excel, Words, PowerPoint

CERTIFICATES

- Workshop on Cloud Computing with AWS (L.N Mishra Institute)
- Android Application Development (Java) (Patna Women's College)
- Java Full Stack (Megasoft Education LTD)
